### Swayam ED-cell, Vasavi College Of Engineering

(2022 - 2023)

Head of Public Relations and SPOC, T-hub

- Initiated and lead India's first E-cell Networking group consisting of 20+ top Ecells of India and organized E-plexus, E-cell Networking event with 50+ attendees.
- Lead and organized [E-carnival](#), a 2-day entrepreneurship celebrating event with 500+ attendees.
- Selected for IIT Madras EDD program, shortlisted amongst 100+ Ecells in India and attended [Esummit-IIT Madras](#) 2023 and Won [Best-Ecell](#) award, by Student Tribe.

### Swayam ED-cell, Vasavi College Of Engineering

(2021 - 2022)

Deputy Head, Web Development

- I designed and developed a website for my practice startup venture TopperStop, a tutor finding platform, where college students can monetize their teaching talent.

## PROJECTS

### React Portfolio Website

Using React

I have implemented the concepts of React Routers, Programmatic Navigation, React Portal, Modal Component, CSS Flexbox and some styling.

🔗 <https://justarandomdude4.github.io>

### MemeEthereum

(2021 - 2022)

Using Solidity, React, Node and Truffle

- MemEthereum is a social media web app that uses Ethereum based smart contracts to post memes.
- I used react for building the UI, Node for client side application, Truffle for deploying the smart contracts on Ganache, which is an Ethereum block-chain simulator.

🔗 <https://github.com/JustARandomDude4/MemEthereum>

### Doodle.io

(2022 - 2022)

Using HTML5, JS, PubNub API

Doodle is a collaborative drawing website that allows multiple users to sketch on the same canvas simultaneously. I used PubNub JavaScript API for RTC.
